

PrimeTime Duplication CD / DVD Label Specifications

Questions: 314-878-9252
Production@PrimeTimeDuplication.com

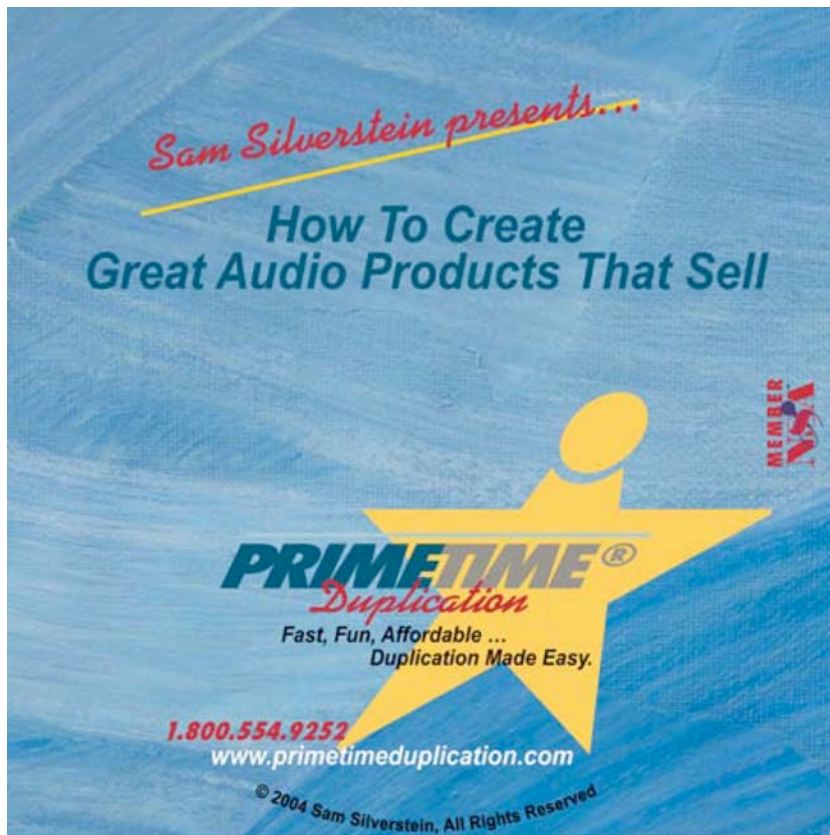

We print beautiful 4-color thermally laminated discs. Our reproduction quality is outstanding. Please follow these guidelines for best possible results.

Submit your artwork in a tif file.

Create all artwork at 300 dpi resolution.

Art size is to be 120 mm square. Yes, we print a round disc from a square file. It's fun! Your actual file should only be the label art, no crop marks, no borders, etc.

Be sure and accommodate a 22mm hole in the middle of your art, but do not show this hole in your submitted art. **(Please notice that the sample below does not show the center hole or the outside circular shape.)**

The disc size is actually 118 mm. Please keep all text 2 mm inside this edge dimension. Or, if you prefer that is 4 mm inside of the 120 mm dimension.

You can create your art file in any layout program. Then you should output an EPS file that you can convert in Photoshop. We use InDesign if you would like our template just email us.

After opening the file in Photoshop, please convert the EPS file from CMYK to RGB. Then save the file as a tif file. When saving the file be sure and check the box that says, "**Embed Color Profile.**"

Also when saving be sure and make the following selections.

Image Compression	None
Byte Order	IBM PC

The natural surface color of our discs is white. Any areas of your artwork that are "clear" will show white.

Remember, colors on the screen are not always as they print. We cannot be responsible for printing unless you request and approve a sample disc. Disc proofs are \$35.00 and include next day shipping.

DVD Case Information:

Our single and double DVD case holds a wrap-around insert up to 10 3/4 X 7 1/8
The case is 1/2" thick.

Please add 1/8" on all sides for bleeds.

Submit a hi-res pdf and show all crop marks on the pdf.

FTP Information:

You may upload your finished label file to our ftp server. Please send an email to Production@PrimeTimeDuplication.com notifying us that you have uploaded files.
